ABOUT THE PRODUCTION:

Johannes Brahms wrote a beautiful a-Capella choir work under the title In Stiller Nacht.

JCKS arranged this song and used high-quality sample voices. The arrangement is divided in 3 sections:

Section A: Voices are used staccato, accompanied by strings with modest rhythmic support.
Section B: Voices are now strong and marcato, with a kick drum to emphasise the rhythmic structure.
Section C: Voices are now soft legato, and repeated in a echo, with a rhythmic dance structure.

The song is produced in the Home Studio from Jack Knapen Music Productions.
Produced and mixed by JCKS.
